III MEETING ON ADULT WITH CONGENITAL HEART DEFECT Emerging and burning problems

San Donato Milanese - Milan

April 18th, 2008

IRCCS Policlinico San Donato
Centro di Cardiologia Pediatrica & Cardiopatie Congenite dell'Adulto

Programme Directors

Dr. Massimo Chessa & Dr. Alessandro Giamberti

Dear friends and colleagues, we have the pleasure of inviting you to the **III MEETING ON ADULT WITH CONGENITAL HEART DEFECT** which is going to be held in San Donato Milanese on the 18th of April 2008.

Objective: indications on the use of new diagnostic and therapeutic methods. To discuss and to delve into recent and important issues, with the objective of supplying concrete and useful indications in the daily clinical and surgery assisting practice.

To increase the collaboration and the synergy of the network of physicians who monitor the follow-up of these patients at various levels.

Faculty: some of the major National and International experts in the field.

Target audience: Paediatric and Adult Cardiologists/Cardiac Surgeons interested in congenital/structural heart disease,

Electro-physiologists, Anaesthetists, Practitioners, Psychologists,

Junior Fellows, Nurses.

III MEETING ON ADULT WITH CONGENITAL HEART DEFECT Emerging and burning problems

8:00-8:30: Registration
